

PRAYER REQUEST

- Update *on behalf of Eric*. MRI result shows that the previously suspected fracture (on x-rays) was a bone changes associated with an old injury instead of a fracture, along with some arthritis. Which means that, no broken bones and no surgery, and can be treated with pain medication and physical therapy. Thank you for your prayers and thank God that it isn't as bad as it could have been!
- **Prayers for the Yelton's. Harriet** has requested prayers for **Don and David**.
Don fell in the yard and has sustain some minor cuts and scrapes and is quite sore; and
David fell at work last week hurting his ankle and heel.
